## Tennis Tournament Keenly Contested By Lethbridge Players

Crows Nest Pass Men's Doubles Championship Wrestled From Lindoe and Balloch

Lethbridge Players Coming Sunday to Compete in Finals—Ladies Singles Attracts Keen Interest

The second annual open tennis tournament held on the local courts on July 1-2, was incomplete at the close of play on Monday evening leaving finals in which Lethbridge players will take part till Sunday, July 8.

The only upset in the ladies singles was the defeat of the defending champion, Mrs. S. Short, at the hands of the up and coming young Joy Ferguson. The finalists in the ladies singles are Miss Margaret McDonald, who is playing at the top of her form versus Mrs. Wilson, who gained a close decision over Mrs. Lindoe.

The men's singles were dominated by Coleman players who occupy the four semi-final brackets. Balloch plays Kwaney while Shore takes on Roughhead.

The men's doubles saw some good tennis. The best tennis of the tournament being played between Jenkins and Shone versus Studer and Brennen, the former team winning in three sets. Bella and Muir created a surprise by defeating the Donaldson-Richards team who had just previously beat Balloch and Lindoe, former champions. Bella and Muir met Jenkins and Shone in the final.

The ladies doubles saw two Coleman teams reach the finals. Short and Ferguson met Lindoe and McDonald, who advanced over the strong Wilson-Clifford team.

The mixed doubles saw Kwaney and Ferguson battle their way into the final with wins over the defending champions, Balloch and Lindoe, and a straight set win over Brennen and Clifford. They will meet the winners of the Muir-Wilson versus Jenkins Short game.

## Italian Society Expresses Thanks

The Italian Society, on the occasion of the re-opening dance of their remodelled hall, on July 2, take this opportunity through The Journal to thank all who supported them by their attendance and the purchase of tickets, and also they appreciate the kindness of Mrs. A. Beveridge and Mrs. W. Milley for their gifts of flowers.

Calgary Stampede and exhibition opens on Monday next, July 9, with the grand parade and the most thrilling grand stand attractions every day for the ensuing week. Excursion rates on railways will likely be taken advantage of by a large number from the Pass towns.

## McBain's Lake Summer Resort

THE most beautiful spot in East Kootenay and an ideal place to spend a vacation that will benefit you in health and give a maximum of pleasure.

All-weather highway and close to railroad.

For rates on cottages and accommodations, apply to

MRS. C. ROSEN, Manager

McBain's Lake Summer Resort

Jaffray P.O., British Columbia

## Boy Scout and Girl Guide Notes

Coleman Troops

Coleman and Blairmore companies of Girl Guides left on Tuesday morning for ten days camping at McBain's lake, under Mrs. R. P. Borden, district commissioner, camp commandant, and Miss A. Yuill, captain. To pack the camp equipment and food supplies occupied about an hour, and when all most every inch of available space on the truck had been utilized, a number of the girls squeezed themselves in the space left and departed with flags flying and plenty of smiles and cheers. Others left in cars kindly loaned by friends. This is the second annual camp. Mrs. C. Devine is one of the camp officers, and Miss J. Devine is attending as camp nurse.

The Boy Scouts left on Wednesday morning for Waterton Lakes.

## St. John Ambulance Association Examinations Held This Week

Col. J. C. Clark, Dominion Director, Examines Mine Teams and Junior Girls Team

Colonel J. C. Clark, director of St. John Ambulance Association, Ottawa, showed some very interesting and instructive films in the K. of P. Hall last evening, demonstrating methods of life saving by artificial respiration, methods of rescuing drowning persons, and instruction in home nursing. Instruction of how to stop bleeding and possibly save life in serious cases was clearly shown by means of moving pictures, and diagrams showing blood circulation, including a very graphic moving picture showing actual circulation, conveyed convincingly the information which would be difficult to explain in words.

Col. Clarke spoke highly of the First Aid teams here, including International and McGillivray mines and the girls team. He also stressed the importance of girls and women being instructed in home nursing, which he strongly urged be taken up more widely in the Pass towns.

O. E. S. Whiteside introduced the speaker, referring to the fine work carried on throughout the Dominion by the Association, and welcomed Col. Clarke on his annual visit. At the conclusion of the program Mr. Whiteside called on G. Kellock and H. T. Halliwell to move and second a vote of thanks, and hearty applause was given the director for his interesting comments and demonstrations.

Executive officers of the local association are J. M. Fushon, secretary, and R. M. Greenhalgh, president.

## Horse Sense Was Lacking

A heavy work horse roaming the streets at midnight fell into the 7-foot ditch on Fifth street where water pipes are being laid. It became wedged so tightly it could not move either way, and remained there from about midnight till workmen released it in the morning by digging around its bulging sides and throwing dirt in front of it so that it could walk up out of the ditch. Several small boys got quite a thrill in carrying handfuls of grass, which the imprisoned animal munched appreciatively. After giving itself a good shake it ambled away apparently unharmed.

## Big Canadian Firm Celebrates Diamond Jubilee

Founded by George and Mathew Beatty on June 18, 1874 and with agencies, warehouses, offices or depots across Canada, in New Zealand, the United Kingdom and fifty other countries, the well-known national and world-wide exporting house of Beatty Bros., manufacturers of washing machines and farm implements, celebrated its diamond jubilee at Pergus, Ontario, location of the head office of the firm, this month. A Canadian Pacific special train brought 200 agents from all over Canada, including two from Great Britain, to take part in the demonstration. An interesting program was thoroughly appreciated and enjoyed.

Lay-out shows arrival of the special at Pergus with insets of W. G. Beatty and M. J. Beatty, respectively president and vice-president of the firm.

## Catholic School of Instruction

Mother Aloisius and Mother Anna Maria of the Ursuline Nuns, Calgary, are conducting two weeks classes in the central school building. Quite a large number of Catholic children are attending daily.

The Ursuline Order was established in Canada with the arrival of some of its members during the days of French rule in Lower Canada, and Quebec was the headquarters until removal to Chatham. Ont. In later years a branch of the order was founded in Calgary.

## Obituary

THOMAS B. HALLIWELL

A cablegram on Tuesday from London announced the death of Thomas Bennett Halliwell, in his 77th year, who passed on at 12:45 p.m. that day, after a lengthy illness aggravated by cancer. The funeral will be held at Nunhead cemetery, London, S.E., burial to take place in the family plot, where his wife lies buried, who died 20 years ago.

He is survived by two sons, Sidney J., of Harpenden, Herts., and H. T. of Coleman. Four other sons were killed or died as a result of war service. William (1st Bn. Rifle Brigade) was killed near Ypres on July 6, 1916, six days after returning from leave after receiving the Military Cross at an investiture by the King at Buckingham Palace; Ernest was killed in Oct. 1917, while serving in the Royal Artillery; Harold, (Northumberland Fusiliers) reported missing after the great German offensive against Paris in March 1918, and Albert, (East Kent Regiment) died at Tunbridge Wells in 1919 from war injuries.

Deceased was a lifelong Conservative, and unsuccessfully contested one of the suburban divisions as a candidate for the London County Council. Up until a year ago, when illness forced him to resign, he was executive secretary of the Southeast London Licensed Victuallers Association of which he was an executive official for nearly 40 years.

Coleman ladies and men's softball teams visited Fernie on Saturday last to play Fernie A. A. A. ladies' and men's teams. Coleman's fairer sex were trimmed to the tune of 23-8, but it was a better game than the score shows. A. A. A. boys took Coleman for a ride by 18-7, and the game was very interesting to watch.—Fernie Free Press.

BABY CARRIAGE for Sale, first-class condition.—Apply Journal Office.

## Suggests Sports Day in Coleman Sept. 5

J. R. Atkinson, prominent in basket ball league affairs, stated to The Journal that efforts would be made to hold a field day here on Wed. Sept. 5, and that a meeting would be called to organize the young people and appoint committees for finance, sports and general arrangements.

It is likely an organization will be formed to hold a sports day every year, so that incentive will be given to local clubs, such as basketball, football, softball, and those taking part in athletic events to improve their standard. Date of meeting will be announced by Mr. Atkinson through The Journal.

## Wes. Vincent Family Move to Alexo, Alta.

Mr. and Mrs. Wesley Vincent, residents of Coleman for nearly 25 years, left this week to reside at Alexo, Alta., where Mr. Vincent has been engaged as master mechanic by Alexo Coal Co. Formerly engineer at McGillivray Co. power house, he took an active part in Masonic and I.O.O.F. lodges, while Mrs. Vincent was active in the ladies fraternal lodges. Their son and daughter, George and Thelma, left with them, though it is likely Thelma will return here to complete her high school course. Many friends and acquaintances join in good wishes for them in their new home.

## McGeer Blames Banking System and Private Credit Control

"People Awakening to Financial Injustice by Unfairly Privileged Bankers, Will Demand National Bank"

A subject widely discussed in the recent Saskatchewan elections was that of the monetary system and banking practices. Gerry McGeer, dynamic speaker of Vancouver, addressed a meeting in the Liberal interests at Weyburn and here is what he said of the present private credit control banking system:

"The outstanding weakness of the present system of government in most countries is the failure of their monetary systems. With an abundance of commodities and manufactured articles on every hand the machinery for proper distribution to meet the needs of the people is totally inadequate. The responsibility for this the speaker placed upon the bankers. They have been bamboozled in the past through the control of the country's monetary system by the smooth-tongued swindlers and racketeers that have ever preyed on civilization the speaker declared.

"He proceeded to explain in detail how the private banking business of Canada is carried on to the aggrandizement of the few at the expense of the many. He severely condemned the racket being carried on by the bankers in exchanging non interest bearing bank notes for interest bearing bonds. People awake—demand credit by banks whereas they must repay in actual money. But the people are awakening to the injustice of their financial dominance by the unfairly

## Object-Lesson Of Peace

Whatever may be the individual reaction to customs houses as between Canada and the United States, there is general unanimity upon the world value of the lesson presented by the unique fact that not a gun nor a fort stands as provocation between the two countries throughout the whole extent of the international boundary.

This is so phenomenal a situation that it has attracted universal attention, been the subject of thousands of after-dinner and more ceremonious addresses, and stands to-day in a belligerent world as a supreme example of what understanding and goodwill can do to preserve the peace of an immense border-line, to cement friendship between two great branches of the Anglo-Saxon family.

For more than 100 years, peace has existed between the Canadian and American peoples, and it is almost inconceivable that any set of facts or factors could disturb the serenity of the relationship existing between the nations north and south of the boundary line.

That goodwill and understanding has been of almost inestimable benefit to Canada. Billions of dollars of American money has been invested in this country; hundreds of thousands of American people have come to settle in our midst. That money has helped materially in the development of Canada; those people have contributed their share to the upbuilding of a great dominion of the British Crown. Together they have helped to achieve that economic diversity upon which Canada has been able to build its economic fabric on a national scale. These facts are evidence of the confidence with which the people of the sister country view their neighbors to the north and testify to the keen appreciation they have of the solidarity of British institutions and British forms of government.

The unique and signal character of this unfortified frontier, the amity between the two nations, and the close economic relations which seem to stand superior to trade rivalries, have attracted attention of the Carnegie Endowment for International Peace, which proposes now to make a special study of the factors lying behind a situation which stands as an impelling object-lesson to peoples of the globe.

Whether or not any definite conclusions can be reached, whether or not a tangible cause can be deduced from the obvious facts, which might be made applicable as a general world principle, remains to be seen. The facts stand in their amazing isolation—peace, goodwill, and understanding are better weapons of defence than all the guns ever forged and all the forts ever built.

Superficially, at least, it would appear the fundamental background to the phenomenon is of the spirit, and for that reason, too intangible to lend itself to any concrete definition or be written into any formula for use of peoples who, similarly situated geographically, cannot get along together. Whatever the finding, the lesson stands for the world to view—an irrefutable proof of what two nations may do if they have the will to live in peace and amity, convincing evidence that, demonstrating their mutual goodwill by dispensing with the so-called weapons of the defence, neighbors may live in harmony without incurring those conditions of the mind or of the body politic, which lead to war.

### Probe Working Of The Brain

#### Use High Radio Currents To Stop Functioning Of Limited Areas

How a University of California psychologist used high radio currents to stop the functioning of limited areas of the brain without interfering with the other parts to study the purposes of particular centres of the brain, was described to the American Association for the Advancement of Science.

This somewhat startling method of probing the functional workings of the brain was based on the research of Dr. Clarence W. Brown of the university's psychology department. Dr. Brown suggested his method of brain study should prove serviceable in solving anatomical and psychological problems in which a small controlled elimination of function is desired.

### Fixed Price For Tobacco Growers

#### Imperial Tobacco Company Of Canada Limited Signs Tobacco Growers' Agreement

Gray Miller, president of the Imperial Tobacco Company of Canada, Ltd., states that "The Ontario fixed tobacco growers are now practically assured for 1934 a price based on 27¢ per lb. for an average crop. Although we are still without any assurance that other manufacturers will follow our lead, we have now agreed to meet the request of the growers for a 27¢ average price, and we have given them our definite undertaking in writing to adhere to that basis for the 1934 crop, provided they can secure an agreement from the other manufacturers to pay the same price."

## Looseness Of The Bowels During The Summer Months

It is seldom, during the summer, that most people are not troubled with some form of looseness of the bowels. Generally it develops into Diarrhoea, Summer Complaint, and has a tendency to weaken the system.

Do not check the discharges too suddenly. Do not experiment with a new and untried remedy, but take Dr. Fowler's Extract of Wild Strawberry, a remedy that has been used by thousands of families during the past 88 years.

Do not accept a substitute. Be sure and get "Dr. Fowler's" when you ask for it.

Put up only by The T. Milburn Co., Ltd., Toronto, Ont.

### Modern War Implements

#### Britain Installing Rapid Fire Gun In Fighting Planes

A big gun era begins in aerial warfare. A 37-millimeter, rapid fire, automatic gun is being installed in some of the larger fighting planes of Great Britain and promises to have a "tremendous advantage" over an opponent carrying only the ordinary machine guns.

The heavy gun shoots more slowly, sending out its messengers of death at the rate of only five in four minutes. But each shell weighs a pound and a half and is considered certain to disable any plane however slightly the contact is effected. And the slow-shooting heavy gun trusts to its long range to give it victory over the hornets. The small, light plane with its sputtering machine gun is never to be permitted to come within effective range.

The report says: "Excellent results at both ground and air targets have been obtained at 2,000 yards." Presumably that gives British air fighters a fine start over all competitors in the armament race. But the presumption limps before the announcement that the new device was developed by experts connected with one of the great armament manufacturers whose trade always has been international.

And even if the British government seizes complete control of that particular make, it can be certain that shortly after the usefulness of the invention has been demonstrated, arms makers of other nations will be out with guns for airplanes that can shoot shells just as big, just as fast and perhaps just a little faster.—Detroit News.

### Praises Missionary Efforts

#### Doctor Credits Christianity With Great Progress In Asia

"The change which Christianity worked in the conditions of millions of women, and the part which Christian women took in working these reforms was the theme of an address at Highclere, South Africa, by Dr. J. R. Mott, president of the World Missionary Council, at a meeting of women workers of all Christian denominations.

The effect of Christian missions upon the lives of women would be sufficient evidence, he said, to convince him of the worth of foreign missions. An additional argument lay in the devotion and the achievements of Christian women in the missions.

To thousands of women in heathen lands the relief brought by the medical missions, the establishment of hospitals, and the creation of nursing services had been immense. Women took the lead and did the greater part of the work in this field of service. It might be said that Christian missions had created the medical profession throughout Asia.

### Fortune Has String Attached

#### Man Must Marry By Christmas 1938 To Inherit

If John Francis Gallagher, of parts unknown, takes unto himself a wife on or before Dec. 25, 1938, and settles down to home life he will receive \$100,000 from his aunt, Mrs. J. R. Zarah, 143 Well Hall Road, Eitham, London, Eng.

The offer of wealth was disclosed in a letter from Mrs. Zarah to Acting Major J. A. McKelcher of Winnipeg. She said she was obliged to make a public appeal as to her nephew's whereabouts because she had lost all trace of him several years ago.

Mrs. Zarah, in her letter, said the last address she had of her nephew was box 130, Carbon, Alta., and general delivery, Prince Albert, Sask. If Gallagher is not located and married by the date set, Mrs. Zarah said she will bequeath all her real and personal property to the church and charity.

### Cost Of Farm Production

Dominion Agricultural Bulletin on prairie farm costs says: A half-section grain farm in the prairie provinces when operated by one man and seven horses would be able to produce wheat at 75¢ per bushel, while, when operated with a 10 hp. tractor and two horses, the cost would be increased to 85¢ per bushel.

### Proved Idea Wrong

Remarkably vigorous tomato plants have been grown out of doors at Fairbanks, Alaska, under continuous daylight for six weeks, despite the fact that the plants are artificial, and daylight exposures of 17 hours or more are injurious to tomatoes.

Obligate plants are plants which can grow in but one life condition.

### Synthetic Rubber

#### Automobile Tires Now Made In U.S. From New Substitute

The first American synthetic rubber automobile tires which look like real rubber and wear fully as well, were announced recently.

They were described as a potential checkmate against excessive rubber prices and a guarantee of American rubber independence in war-time. The synthetic rubber now costs about \$1 a pound, against 15 cents for foreign real rubber, which has ranged from five cents to more than a dollar.

The announcement was made jointly by the Dupont Company, makers of the synthetic rubber, and the Dayton Rubber Manufacturing Company, of Dayton, Ohio, making the tires.

The synthetic rubber is made of acetylene, salt and water. The acetylene comes from coal and limestone, and all the ingredients are home products.

J. A. MacMillan, president of the Dayton company, issued this statement:

"These tires have been subjected to rigid laboratory and road tests and have proved themselves fully the equal of tires built of natural rubber. They have been placed on automobiles opposite tires built of natural rubber and have been subjected to severe usage."

### Use Of Radium

#### Dr. Shepley Deals With Advance Made In Use Of This Medium In Recent Years

"It is definitely recognized to-day that the scope of radiotherapeutic attack has so widened that it now embraces a very large per centage of the total cancer field," Dr. Earle E. Shepley, radiotherapist for the Saskatchewan cancer commission, of Saskatoon, told delegates to the Canadian Medical Association at Calgary. His paper dealt with the advances made in the use of radium as a therapeutic agent since its discovery in 1910.

"Because of late recognition," Dr. Shepley said, "a large per centage of cases of cancer cannot be considered from the viewpoint of curative attack. In those that have been given curative treatment procedures, however, more than one-third are cured. From these groups, a large number require palliative radiotherapy." This is a matter of importance because such procedure reduces suffering even if not effecting a cure, Dr. Shepley explained.

### Will Regulate Tariffs

#### Dr. Shotwell Explains Powers Given To Roosevelt

Economic problems, including tariff questions, would be more smoothly adjusted between Canada and the United States as a result of the powers to regulate tariffs given to President Franklin D. Roosevelt, Dr. James T. Shotwell, former Canadian representative of the United States at the peace conference in 1918 and at present professor of history at Columbia University, New York city, told the Ottawa Canadian Club. Formerly these powers were the prerogative of the United States congress.

Tariffs, under executive decree, would operate without the intrusion of political prejudices formerly seen, Dr. Shotwell said. His audience included Prime Minister R. B. Bennett, Sir Robert Borden, wartime premier and Rt. Hon. Mackenzie King, former prime minister and Liberal leader in the House of Commons.

### Gold In Canada

Gold is found in every province of Canada except Prince Edward Island, and in point of value it ranks with coal as the two most important mineral products of the Dominion, states the Department of Mines, Ottawa.

"Minnow" submarines weighing only 12 tons and measuring 29 feet in length have been given successful undersea tests in Japan.

In English law, a bailiwick is the district within which a sheriff may exercise jurisdiction.

### PLUG SMOKING TOBACCO

### Regular White Elephant

#### Automatic Gave Minister From India Lots Of Trouble

Rev. Elbert M. Moffatt, central treasurer of the Methodist Episcopal Church in India, was a sadly troubled man when he arrived from Europe on the liner American Trader, with a 45 calibre automatic revolver.

The automatic became a source of trouble to Mr. Moffatt before he left Bombay. The weapon was taken there by a bishop's sister, whose American friends felt she would need something to protect herself when she was so far from genteel Oklahoma.

It is, however, illegal to have a pistol that is not registered by the police in India. And the police refused to register the pistol because its bore was the same as that of theirs.

The bishop's sister appealed to Mr. Moffatt to take the pistol back to the United States when he sailed. He had it in his possession for two weeks before he left India with his wife and their children. And the police kept a constant watch on him, which was most embarrassing.

When he arrived in the United States he listed the pistol on his customs declaration. The customs agents said they were not interested. He felt relieved that he was not violating any law, but the helpful customs agents said: "While the pistol does not violate our law, it violates the New York State law of course."

Mr. Moffatt threw up his hands. "I am," he said with determination, "taking it to the nearest police station."

### A Miracle Of Speed

#### Nineteen Girls In London Factory Make Shift In Minute

Those who refuse to believe that a shirt with all its stitching, trimming, button-holing, and so forth, can be made in one minute, should go to a building in London, and see nineteen girls, seated at nineteen tables, separated into two blocks, by a moving conveyor, performing this miracle of speed. Each girl performs one operation. One sews cuffs, another makes collars, another button-holes. All the time shirts in various stages of completion are moving with the conveyor from one table to another. At full pressure the minute can be reduced, it is said, to fifty-five seconds!

### Gift For British Admiralty

Charles Courtney, master locksmith, arrived in London from the United States and said he would present to the Admiralty certain rings and articles of wearing apparel belonging to the late Lord Kitchener. Courtney said he had salvaged the articles from H.M.S. Hampshire, the ship which carried Lord Kitchener to his death while on an official mission during the war.

### Husband Needed Sympathy

In granting a divorce to a talkative woman at Toledo, Ohio, Judge James Austin explained that it was given "as a favor to her husband." Mrs. Northerta V. Mueller could not be stopped by judge, attorneys or bailiff after she began a recital of her domestic affairs. The husband did not contest the action.

### Population Of India

#### Showed Increase Of Thirty-Four Million In Ten Years

Dr. J. H. Hutton, C.I.E., I.C.S., chief commissioner for the census of 1931, in a census report wrote that for long China was considered to hold the greatest aggregate of human beings in the world more or less under the same administration, but India's population now even exceeds the latest estimate of the population of China. The difference between the kind of government China has had during the present century and the kind of government that India has had could not be better illustrated. The census of 1931 gave India a population of 353 millions or an increase since 1921 of just under 34 millions. The increase in the ten years from 1921 to 1931 is alone almost equal to the total population of France or Italy and much greater than that of important European powers like Poland and Spain. If there was an increase of 34 millions between 1921 and 1931, a similar or even greater increase between 1931 and 1941, bringing India's population almost up to the 400 million mark which is envisaged by Sir John Megaw, cannot be dismissed as impossible.—Calcutta Statesmen.

### Kept Old Appointment

#### Friends Meet In Denver On Schedule After Twenty Years

Three men entered the office of a Denver newspaper promptly at 11 o'clock on a recent morning to keep a rendezvous made 20 years ago. The trio consisted of Earl E. Anderson of El Centro, California, H. H. Bromley of Denver and F. A. Donk of Rocky Ford, Colorado.

They explained that one night in 1914, while all were living in Denver, they made an appointment to meet in that particular building a score of years later.

## Doukhobor Element In British Columbia Have Lost Franchise

Ottawa.—Disfranchisement of Doukhobors in British Columbia, that religious group accused on one hand of bombing trains, burning schools, organizing nudist parades, and on the other of just being queer people with queer ideas, raised a storm in the House of Commons.

Led by two British Columbia Conservatives, Goto Stirling and William Eising, the house passed a clause in the Elections Act disfranchising all Doukhobors in British Columbia who had no vote provincially. It will affect 2,000 or 2,500.

But the new law did not pass without a fight. The Doukhobors were painted in conflicting tones—industrious, hard working people who should not be persecuted by a group when a few hot-heads among them insisted on nude parades and the disregarding of all laws. Then came the other picture—the Doukhobors described to vote the franchise because they voted en masse on the dictation of their leader, Peter Verigin; they were arrogant, disregarded laws and conventions; terrified settlers living near them and generally refused to act as good Canadian citizens.

"This will be a standing disgrace to Canada and all Christian countries," said Hon. W. R. Motherwell, former minister of agriculture, one of the leaders against disfranchisement. "Some of us haven't met religion, the Doukhobors seem to have too much, but it seems to me we need such people to keep up any sort of decent average in this country. It happens some of them believe they can worship their creator better in the nude than fully or partly clothed. To persecute them would only intensify their disregard for all things Canadian. That has been the history of all persecuted people, including early Christians."

W. K. Estling (Cons., West Kootenay), said the Doukhobors themselves did not want the vote and re-

cently passed a resolution thanking the Dominion in anticipation of being without it. He told of Doukhobors voting en masse at the last federal election, one poll returning a solid Liberal count.

Goto Stirling was more specific in his charge. He told of a solicitor for the government at the 1930 census at Grand Forks having to run away from the Doukhobor colony for fear his clothes would be pulled from his back, the leaders in the nudist attempt being two girls.

Settlers in that community, living close to the colony, were in actual fear of their lives, while 35 schools were burned last year in British Columbia as a protest against provincial laws demanding attendance of Doukhobor children.

Mr. Estling told committee members they need not feel any great concern about the Doukhobors. For 14 years prior to the last general election there had never been a Doukhobor vote cast. They did exercise their franchise in the last election but displayed no individual interest, simply marking their ballots as carefully instructed to do by Peter Verigin, their spiritual leader.

"They have no regard for Canadian laws," Mr. Estling said. "They do not recognize any provincial laws; they will not register births, marriages or deaths nor will they obey the school laws. They burned down 35 schools in British Columbia and have cost both the British Columbia government and the federal government vast sums of money."

**Debt Conference**

London.—The German-British debt conference was speeded up as the "clearing house" bill, under which forcible collection of interest on the Young and Dawes loans would be possible, became a law. Optimism was expressed by both German and British conferees that a settlement will be effected and a trade war over the moratorium will be avoided.

## Britain Not Prepared To Make Payment To U. S. In Goods And Services

Washington.—A British reply that Great Britain was not prepared to make partial payment of its debt in goods and services was received by the state department without comment.

The formal note, delivered to the state department by D. G. Osborne, charge d'affaires, rejected overtures made by Secretary Cordell Hull in a note of June 12.

"The British note said the experience of German reparations had shown that transfer of goods was as untitling to world economic affairs as transfers in cash and could not be entertained by Great Britain."

The British note emphasized that the primary question for settlement was the amount that should be paid.

In administration circles that declaration was considered as making clear that Great Britain had notified this country, in effect, that it would make no payment of any kind until the present debt funding agreement had been revised downward.

Secretary Hull's note of June 12, after setting forth the American position in opposition to British reasons for failing to pay on June 1, explained that Great Britain had never made any suggestions for payment in kind and hinted that such payments might open an avenue for settlements.

The text of the British debt note follows:

After careful consideration of the note which you addressed to Sir Ronald Lindsay on June 12, His Majesty's government in the United Kingdom feels there are two questions to which it may be useful to make further reference.

In the first place, His Majesty's government would observe that in their note of June 4 they did not state payment of the British war debt was legally contingent upon payment of the debts due to them. What they said was that it would be impossible for them to contemplate a situation in which they would be called on to honor in full their war obligations to others while continuing to suspend all demands for payment of the war obligations due

to them. This was a statement not of law but of fact.

Secondly, as regards the suggested payments in kind, His Majesty's government would recall that the experience of German reparations showed that transfer difficulties are not solved by a system of deliveries in kind.

As the committee, presided over by General Dawes, pointed out in 1924: "In their financial effect, deliveries in kind are not really distinguishable from cash payments."

In fact, economic objections to cash payments would apply with equal force to deliveries in kind, unless those deliveries were to consist of indigenous products of the debtor country (excluding re-exports) and which were to be accepted by the creditor country and consumed by it in addition to the goods taken from the debtor country in the normal course of trade.

If the United Kingdom were not to receive payment for goods exported on commercial accounts, her exchange resources available to purchase cotton and other goods from America would be still further diminished. Therefore, while not unwilling to give further consideration to possibilities in this direction, His Majesty's government do not at the present see any method of putting such a plan into practice which would be likely to commend itself to the government of the United States of America.

In the view of His Majesty's government, the primary question for settlement is the amount that should be paid, having regard to all the circumstances of the debts.

They regret that up to the present it has not been possible to make further progress in this matter but they will welcome the opportunity of resuming discussion whenever it may appear that present abnormal conditions have so far passed away as to offer favorable prospects for a settlement. They are always anxious to remove from the sphere of controversy all or any matters which might disturb the harmonious relations between the two countries.

## Chief Constable Resigns

C. H. Newton, Head Of Winnipeg Police Force, Retires After Long Service

Winnipeg.—Chris H. Newton, chief constable of the Winnipeg city police for the past 15 years, has resigned, and the reins with which he had guided law guardians of the city were in the hands of George Smith, chief of detectives.

Mr. Smith was appointed acting chief by the Winnipeg police commission after that body accepted the resignation of Mr. Newton. The resignation, tendered on June 13, was accepted with regret by the commission just one hour after discussion of the situation arising out of a charge of assault laid against the former chief by Joseph O. Ericky, watchmaker.

It was stated the resignation was accepted with no other motive than the chief's desire to retire. He will receive a pension.

Mr. Newton, president of the Manitoba Cricket Association and prominent executive of the Chief Constables' Association of Canada, joined the Winnipeg police force in 1901 as a patrolman. His superior education and general ability brought him rapid promotion, until in 1919 he was appointed to the chief constable's post.

## Boys Start On Tour

Famous Kiltlano Band Will Sail From Montreal For England

Vancouver.—Canada's champion junior band, the Kiltlano "Boys" Band, of Vancouver, has left here en route for a two-months tour of England before returning home. At least one of the 45 youthful musicians plans to remain in the Old Country if his hopes are realized.

Norman Pearson, tall, fair-haired, 16-year-old trombonist, who besides winning many awards for his music has established himself as one of the Dominion's foremost cricketers, will attempt to realize his ambition when he reaches England—to play in first class county cricket there.

Pearson, despite his youth, has compiled a record in two months of play this season that is believed unequalled in Dominion record books. During that time he knocked up five centuries, passed the two-century mark once, and scored a total of 1,023 runs. His high score was 221 runs. And to make his record more remarkable, three scheduled games were rained out.

Concerts are being given en route at all the larger cities on the prairies and in eastern Canada.

The party will sail for England from Montreal on the Duchess of Athol.

## Farm Debt Adjustment

Senate Frowns On Bill And Carries Amendment

Ottawa.—Provision in the government's farm debt adjustment legislation whereby a mortgage costing a farmer in excess of seven per cent, may be liquidated on payment of the principal and three months' interest unless the mortgagor desires to continue it at a rate of five per cent, was frowned upon by the senate banking and commerce committee.

It was held this would make it impossible for farmers to secure mortgages. An amendment was carried unanimously making it possible for the mortgagor to hold his contract, when so challenged, by reducing the rate to seven per cent.

The committee proposed only one other amendment. A provision that would allow the governor-in-council to appoint an official receiver only in such counties as would be deemed necessary and expedient.

The bill was reported for third reading as amended.

## MAY COME TO CANADA

The health of Premier Ramsay MacDonald is the chief concern of the people of the Mother Country at the present time, as his physicians demand that he take a rest. Mr. MacDonald must take at least three months' rest, and it is thought he may make a trip across Canada.

## Relief Cheques

Payment Of Dominion's One-Third Proportion Is Authorized

Ottawa.—Cheques in varying amounts from less than \$100 to \$327,231 as the Dominion's one-third proportion of provincial relief operations, were authorized by orders-in-council tabled in the House of Commons. The amounts authorized included:

Alberta—\$77,681.  
British Columbia—\$207.  
Manitoba—\$3,872.

Saskatchewan—\$64,614, municipal and direct relief expenditures under 1933 act, to be credited to the \$500,000 loan made by the Dominion to Saskatchewan, November 24, 1933. For provincial works under 1933 act—\$1,066. Municipal direct relief under 1933 act—\$93,920. Municipal direct relief under the 1932 act—\$790, to be credited to the Dominion's loan of \$500,000 to Saskatchewan dated January 6, 1934.

## Reject Senate Amendment

Wheat To Be Subject To The Marketing Code

Ottawa.—The House of Commons has rejected senate amendments to the Marketing bill which would have removed wheat from the list of products open to a marketing code.

"We are disagreeing with the senate," Premier R. B. Bennett explained.

The motion to "acquaint their honors" of the disagreement was moved by Hon. Robert Weir, minister of agriculture. The house generally endorsed the government's position.

Hon. Ian MacKenzie (Lib., Vancouver Centre), said he warmly approved the stand that if there was to be a marketing board for natural products, wheat should certainly be included.

## Mollison To Enter Air Race

New York.—Mrs. Amy Johnson Mollison, the English flyer, said she and her husband would fly together in the England-to-Australia air race next October, in a specially built plane.

## Trade With Great Britain

Toronto.—"We intend to establish close trade relationship with Great Britain and all other countries," Hon. Henry T. Rainey, speaker of the house of representatives of the United States, declared here.

## Trade Agreement Is Reached Between Britain And France

### To Visit Dominion

Reported That Ramsay MacDonald Will Holiday In Rocky Mountains

London.—The Daily Herald states that Prime Minister Ramsay MacDonald has "practically decided" to spend his long vacation from official duties in Canada, including in a walking trip through the Rockies.

A projected trip up the Amazon river in Brazil was rejected, the Daily Herald said, on account of the intense heat. Friends of the prime minister looked with disfavor upon his suggestion of spending the three-months health-seeking vacation in Newfoundland.

Internal politics in Newfoundland might worry the work-worn premier, it was feared. The newspaper reported that a long sea cruise was rejected on the grounds Mr. MacDonald would spend much of his time reading. He has suffered a great deal from eye strain during the last few years.

The visit to the Canadian west was finally proposed as affording the best possible rest for the premier. It was not stated who would accompany Mr. MacDonald but his daughter Isabel was believed almost certain to go with him. She has accompanied her father on all his trips away from England.

### Watch Market Conditions

Would Have Agents Sent To England To Keep In Touch With Trade

Ottawa.—Strong recommendation that a small delegation of two or three men who have had experience in the raising and marketing of livestock in this country should be established in England, is made in the report of the agriculture committee of the senate. The document was presented in the upper chamber by Hon. James J. Donnelly (Con., Bruce), chairman of the committee.

"Their business," the report proceeds, "would be to keep in contact with the department of agriculture there, watch market conditions closely, endeavor to secure for the Canadian producer a much larger share of the British market than he enjoys at present."

## Proposals Are Made For Some Changes In The Election Act

Ottawa.—Support to the suggestion that persons not voting should be struck from the voters' lists was given by Hon. Charles Stewart, Liberal representative from Edmonton West, in discussion of the Election Act.

Hon. Hugh Guthrie, chairman of the special committee, after discussing amendments, stated one remaining for consideration was "the point is if a person does not vote should he be struck off the voters' list?"

"I am in favor of that," said Mr. Stewart. Anything that would place a responsibility on the voter to record his ballot should be provided, he held. Both Mr. Guthrie and Hon. Ernest Lapointe demurred. The provision would be going too far, the present and former ministers of justice contended. "I will move it be-

fore the house," said Mr. Stewart.

Any Dominion by-election before dissolution of the present parliament will be held under the present Election Act. An amendment to this effect was approved at a second meeting of the special committee. In amended form, the act respecting the election of members and the new franchise bill, likewise with alterations, will be reported to the commons.

Closing its deliberations, the committee heard brief suggestions for the proportional representation system of voting and the transferable vote.

As sponsor for proportional representation, William Irvine (U.F.A., Wetaskiwin) agreed he would bring the subject before the commons. It was decided unanimously the special committee would not go into the merits of the proposal.

The transferable vote would require "much attention" before it could be brought into operation, Hon. Hugh Guthrie and Hon. Ernest Lapointe, former minister of justice, concurred.

A proposal a clause be inserted to cover absentee voters was made by A. W. Neil (Ind.-Cons.-Alb.). It was decided Mr. Neil should draft a provision for consideration of the house. The proposed clause, it was agreed, should cover fishermen, lumbermen, miners, prospectors and sailors more than 50 miles from their constituency. The amendment to be placed before the commons contemplates allowing such voters to mark their ballots in the ridings in which they are located on election day. The results would be telegraphed to the home constituencies of the voters.

## MACHINE GUNS SPRAY DEATH INTO THE RANKS OF HAVANA PARADERS

Ten were killed and more than 20 wounded when machine gunners opened fire on a political parade of students in Havana, Cuba. This unusual picture shows the actual fighting shortly after the battle broke out. No. 1 designates the nest of machine gunners and the haven of some of the wounded. No. 2 is a man slain in the street. No. 3 shows some of the paraders who have taken refuge behind a lamp post and are returning the fire of the attackers with their pistols. The cameraman risked his life to get this picture.

## NOTES AND COMMENTS

**SOCIAL CREDIT**, the plan proposed to restore purchasing power to the masses and balance the scales between so-called "capital and labor" requires close study to glimpse its possibilities as a medium for restoring equal distribution of goods. Like every other movement for emancipation of the masses, it will require a period of education of the common people and the move will have to come from themselves. Stand-patters and ultra conservatives will regard the plan as a dream, yet delving into the addresses by Major Douglas, Dr. Aberhart and others who addressed the Alberta legislature, and reading the questions and answers in the House, there is material and reasoning which causes deep thinking.

**BUSINESS** would swing along merrily if people had the same purchasing power as prior to 1929. The Douglas system by perfectly legal means aims to restore that power by utilizing national credit for the masses instead of for corporations and financial institutions. National credit under the present system does exploit the people, and banking in situations take very little risk. As an instance, banks refused to loan the C. P. R. \$60,000,000 last year. Mr. Beatty induced the Federal government to guarantee the loan would be repaid to the banks. National credit was used to guarantee a loan the banks would not make. Admitting the country could not allow the C. P. R. to become bankrupt without serious results to the Dominion, and also admitting that part of the loan has been repaid, it does appear lop-sided that the people's credit can be pledged for big companies while thousands who share in the risk and would have to pay by taxation if the loan was not repaid cannot secure any credit themselves.

**IF** these inequalities a social credit system would attempt to remove, for as its advocates claim, it is under-consumption instead of over-production which causes distressed conditions, and purchasing power or social credit in the hands of the masses is the only remedy. Every ratepayer would spend his time to advantage in studying the principles of what many will consider a revolutionary system.

**LOCAL** Interest was revived in tennis by competing stars from southern Alberta meeting local players, and keen matches were played in which the home players proved their skill. The tennis club, as the only local organization taking advantage of the Dominion holiday, furnished a good program for onlookers interested in this form of recreative exercise, and the club's executive is to be commended for their enterprise.

**INFERIORITY** Complex and lack of energy are attributes of mentally lazy people who will not move a hand to help themselves. "Why doesn't so and so do something?" is the criticism they utter when they themselves have every opportunity to do something. But they either haven't the ability or inclination—or is it just plumb laziness and selfishness?

**SOME** people with a warp in their mentality abuse credit privileges by withholding payment for necessities which merchants may have supplied, while they indulge in extravagances which their creditors deny themselves because of non-payment by those who owe them. If credit were to be denied this type, they would think of the storekeeper in harsh terms; if they are asked to pay up for goods supplied, they think it an insult. But they keep on adding injury to insult by persistently neglecting to honor their debts. Under a social credit scheme, it is presumed there would be no credit for those who spend more than they earn and eventually destroy their own credit and are classed as bad risks.

**ACTIVITY** begets activity. If customers are few, there is time to liven up the store's appearance by re-arranging the stock, putting in an attractive window display or even spreading some fresh paint on shabby surfaces. The chances are that once you start, you will find it quite difficult to finish, for customers will begin to take notice and will be attracted by signs of increased activity. The alert merchandiser will perceive the silver lining through the temporary mists of dull business, which tends to develop inertia during the hot summer months.

**EVENTS** move swiftly at the capital following the jury finding against Premier Brownlee on a seduction charge. U. F. A. members hurry to Edmonton to decide who will be premier. As this is written, no decision has been made. With sessional indemnities of \$1800 for another term, and higher indemnities to cabinet ministers, experienced observers consider it unlikely the government will decide to vacate office, as the possibilities are that the Farmer government will be defeated by the Liberals on the next appeal to the electors. The McPherson and Brownlee law suits leave an offensive atmosphere, and many agree it is time for a thorough housecleaning.

**THE** lone woman representative's voice in the House of Commons held up prorogation of Parliament over the week-end. Miss Agnes McPhail, M. P., made it known that woman's voice can upset mere man's designs—even Premier Bennett's.

## Personal and Local

Mr. and Mrs. R. M. Greenhalgh left on Saturday for Spokane.

Joe Splavak and party motored to McBains Lake on Sunday.

Mrs. M. A. Lewis and daughter, Mrs. S. Ferraro, left on Saturday for Vancouver.

Miss Muriel Naylor who has been teaching at Irvin Butte returned home for the holidays last week.

Miss Gladys Higginbotham who has been teaching near Youngstown returned last week.

Miss K. Milley left on Monday for Edmonton where she will attend summer school.

Miss Alma Hedberg is home from Calgary after completing her course at Garbutt's business college.

Penelope McDonald, nurse-in-training at the Holy Cross hospital, Calgary, is home for her vacation.

Margaret and Edna Hogan left on Sunday morning for Arrow Lakes, B. C., where they will spend the holidays.

Mr. and Mrs. Howarth and son John and Mr. and Mrs. J. L. Lonsbury spent the holiday on a motor trip going by way of Cardston through part of Montana to Kalispell and return via Fernie to Coleman.

Miss Olga Hale left on Sunday for her home in Calgary.

Nilo Apponen was a week-end pleasure-seeker at Waterton.

Mr. and Mrs. Frank Graham and children, accompanied by Miss A. Yull, motored to McBains Lake on Sunday.

Mr. and Mrs. W. Audel, Laura and Billy, left on Sunday for the Gap where they will reside during the summer months.

Miss Hilda Fairhurst returned to the Nursing Mission in Lethbridge after spending the month of June at home. Miss Edna Fairhurst accompanied her.

Boy Scouts were well supported on Flag Day, sales amounting to \$42, part of which goes to head quarters and part to local funds. The Scouts ask The Journal to express their appreciation.

Mr. Chas. W. McKinnon and daughter Grace left on Tuesday for a three months holiday in Eastern Canada. Mr. McKinnon will join them when he leaves on his summer vacation.

At the recent examinations held in the Marquis hotel, Lethbridge, Miss Moira Mansell and Miss Nancy Jackson passed with honours in pianoforte playing. These promising young girls were the only two pupils entered by Mrs. Thos. Gaskell, music teacher, of Corbin.

Mr. and Mrs. J. Park spent the holiday in Kimberley.

P. Ryan was a Calgary visitor during the holiday.

Coleman Red Sox defeated the Hillcrest club on Friday evening by an 11-9 score.

Miss Margaret Hendricks returned to her home in Warner on Saturday after spending the year in Coleman attending grad-XII.

Mr. and Mrs. H. D. Hulburt, who are spending the summer at Crows Nest Lake, spent the holiday in Calgary, and were accompanied on their return by Fred Ougden, of Calgary who will spend a week's holidays at the lake.

Tom Holstead was caught in a beautiful shower on Monday night when returning from Spring Point. So muddy was the trail that he pulled into the side, and decided to take a nap till dawn, when the trail was sufficiently dry to allow him to reach the highway. It wasn't quite as comfortable as a real bed.

Idris Hayson of Coleman has taken over the Bell-vue Pharmacy from A. J. Barbour, commencing on July 1. Passing through Coleman high school, he served three years apprenticeship in McBurney's drug store, and studied for two years at Alberta university, being graduated in pharmacy this spring. Mr. Barbour has made definite plans as to his future movements.

Mr. and Mrs. James Moores of Creston were visiting in town.

Mr. and Mrs. Steve Losky left this week on a holiday trip around the Banff Windermere highway.

Miss Peggy Gillespie left Monday for Vancouver where she will be the guest of her sister Maile.

Mrs. George Kellock and son Jim sailed on Tuesday from Montreal on the C. P. R. liner "Montclair," which carries the Scottish Re union Party to Glasgow. They will remain in Scotland for two or three months, visiting at Mrs. Kellock's former home.

Cheap looking stationery for any business gives a poor impression. An expensive one is an important item in appearance, so is stationery to a business. Order quality letter heads and envelopes from The Journal. They cost very little more than cheap stock, and give far greater satisfaction.

A. M. Morrison and Geo. Kellock attended the Liberal economic conference held last week in Lethbridge when W. R. Howson, Liberal leader, was the principal speaker. The Liberals are planning on an early election, and are calling on the U. F. A. government to resign office. As to plans for a Liberal nomination in Rocky Mountain constituency, no information was available. The Journal was informed, as the matter was not discussed.

## Graceful Pontiac Straight Eights for 1934 Announced

### SMOOTHNESS IS FEATURE

The Pontiac Straight Eight for 1934 has not only achieved still greater fuel economy, but the 84-horsepower engine is said to operate with a smoothness excelled by few cars even among the highest priced. The 1934 Pontiac bodies are roomier than ever and the chassis, of course, has that remarkable innovation—knee-action front wheels, the mechanism for which is enclosed in an oil-filled housing. A cross section of the knee-action wheel mechanism is shown in upper left. Upper right, one of the coupe models. Below the 5-passenger special coupe with trunk.

## WORLD HAPPENINGS BRIEFLY TOLD

New motor cars on the roads of the United Kingdom in March numbered 43,735 as compared with 33,748 in March, 1933.

Charles S. Thomas, 84, who capped a stormy career as United States senator and governor of Colorado by defying President Roosevelt's 1933 order against gold hoarding, is dead.

Canada's greetings were extended to the Prince of Wales on the occasion of his birthday, June 23, by the Governor-General, the Earl of Bessborough.

Henry Lawson Royle, 16, attempting his first flight, at Herby airport, Yorkshire, crashed and was burned to death 10 minutes after the take-off.

Dr. Wm. Boyd, professor of pathology in Manitoba Medical College, has accepted a similar position in Stanford University, California, it was announced. He will leave Winnipeg late in August.

The International Institute of Agriculture estimated that the drought will cause European wheat harvest this year to fall short of 1933 by 260,000,000 bushels. The 1934 harvest is expected to total 1,470,000,000 bushels.

Rev. Ernest William Barnes, Bishop of Birmingham, declared at a peace service in London, that Great Britain should disarm even though she is alone among powers in doing so. Any alternative policy, he argued, might lead to war.

The Rotarians, 10,000 of them, were welcomed to Detroit. Representing 80 nations and nearly as many languages and political philosophies, they assembled for the 26th convention of Rotary International.

Novak Kazimierz, Polish newspaperman, who left Warsaw many years ago to get material for a book, has arrived at Cape Town after peddling across Europe and down the length of Africa on a bicycle.

## Chinese Were Acquitted

**Alleged Lottery Tickets Were Poems**  
By Confucius

Poems written by the great Chinese philosopher, Confucius, cannot, by any stretch of the imagination, be classed as lottery tickets. Judge Lacroix ruled when he dismissed thirteen actions against the Chinese for operating lotteries.

Police had recounted how they had purchased slips of paper containing Chinese characters and had been informed that a drawing would take place on certain dates. The slips, they stated, were lottery tickets.

"Are you certain these are lottery tickets?" Charles Coderre, defence attorney, asked the witnesses, who responded affirmatively.

The slips were turned over to a Chinese scholar, who examined them and announced with a smile that they were fragments from the poems of Confucius.

In rendering judgment, Judge Lacroix pointed out that three essentials were necessary to establish a lottery, the ticket, the prize and the drawing. There was no evidence of a ticket, none of a prize and none of a drawing. Judge Lacroix ruled in dismissing the action.

## Never Shows Correct Time

**Silesian City Clock Has Been Fast For 650 Years**

Gorlitz claims a distinction which is probably unique. A clock in this ancient Silesian city has not shown correct time for over 650 years. In 1953 a conspiracy was formed to murder the councillors as they left the town hall at noon. Conscience, however, overtook one of the conspirators, and he put the clock forward seven minutes. As a result, the would-be assassins arrived on the scene too early and were arrested. The watch, too-day the clock is still kept seven minutes fast in memory of the councillors' escape.

## Through With Speed Flying

Capt. Frank Hawks, famous aviator, on a visit to Detroit, revealed that he is through breaking airplane speed records. "Speed flying is circus stuff now," he explained. "Safe flying is the real job confronting air pilots." Capt. Hawks has been in China in the interest of an American aircraft company. He was in Detroit to take delivery of a new aerodynamic automobile.

Java is one of the most thickly populated places in the world; 40,000,000 people occupy its less than 80,000 square miles.

## Set Up Laboratories On Mountain Peaks

**Scientists With Opposing Views Will Study Cosmic Rays**

Two Colorado mountain peaks towering more than 14,000 feet above sea level, have been chosen as laboratories for two groups of famous scientists for the study of the much-discussed cosmic rays.

Dr. Joyce C. Stearns of Denver, R. D. Bennett, of Massachusetts Institute of Technology, and Darol K. Bowman of McDonald College, Canada, will conduct experiments atop Mount Evans in the Denver mountain park.

Dr. Robert A. Millikan of Pasadena, whose theories regarding the cosmic rays are in many respects opposed to those of Dr. Compton and his associates, will set up his equipment on top of Pike's Peak, near Colorado Springs.

## Trained Engineers Needed

**Good News For Graduates Of School Of Mines**

There never has been a time in history when the need for highly trained technical engineers has been greater than now. Former United States Senator Tasker L. Oddie of Nevada told members of the 1934 graduating class of the Colorado School of Mines.

"World competition," he said, "is growing more keen in the production of the metals especially, and the balance of success will go to that country whose technical progress in the field of invention and improved methods of treatment has made the greatest advancement."

## Winnipeg Newspaper Union

By Ruth Rogers

During the past year I have read a number of articles, both in magazines in newspapers, as well as many letters that have come to me, on the subject of "Nature Balance," denying actions or systems on the part of man which the writers described as "interfering with Nature," "upsetting Nature's balance," and so on. To all who adopt that attitude I should like to put myself on record to the effect that personally, I believe the so-called "balancing" of Nature was left entirely with man, and that I believe in assisting Nature for the benefit of humanity. God created everything—everything and then He created man "in His own likeness and gave him dominion over all that is, as I understand it, the power and authority to manage everything here on earth."

Look, for instance, at the animal world, with the livestock in the farmer's barnyard as example. Did God create the Jersey cow, and the Holstein, and the Hereford? No. He gave them the original stock and then God through man's instrumentality, developed many breeds, some for the high cream content of their milk, some to produce the greatest quantity of milk, and some as the best beef cattle. All have been on the earth a long time of course; but their differences are who the man's management. And, remember, man had to interfere with Nature to develop them.

Much the same thing is true of the horse, different strains being cultivated for particular purposes, such as the Clydesdales and Percherons for heavy draught work, and the blue-blooded descendants of original Arab stock for racing.

Recently I was in some of the southern United States, where the character of the farm work to be done is too heavy for the common ass, yet where the climate is too warm to permit of the horse doing its best. In that part of the continent, therefore, man has crossed the ass with our common horse and produced the mule, who understands the heat and is also strong enough to do the work of tilling the soil. Yes, he has developed the mule. But the mule is quick and, so far as I know, has gone no farther.

In poultry, if you trace back the various species it is very easy to see that it has been the work of man that has developed the different breeds—Leghorns, Brahmas, Minorcas, Plymouth Rocks, and so on—some of which are especially valuable as layers, and others as food. Our much-prized turkey is nothing more nor less than the wild turkey, domesticated and improved.

Seventy-five years ago our Canadian North-west was grazed by millions of wild buffalo (Bos bison). Then came the white man who, realizing the value of the fertile soil, established a park where a herd was placed to preserve the species from extinction, slaughtered the great roaming herds and, turning the land upside-down, made it into one of the largest and most valuable of the great wheat-fields, with towns and cities and stately governmental buildings dotted here and there across its

## SUNDAY SCHOOL LESSON

JULY 8

ASA RELIES ON GOD

Golden Text: "The Lord is my help, I will not fear: What shall man do unto me?" Hebrews 13:6. Lesson: II. Chronicles, Chapters 14-16.

Devotional Reading: Psalm 21-5.

Explanations And Comments

The Prophet Azariah's Counsel, 2 Ch. 15:1-7. The Spirit of God came upon the prophet Azariah, the son of Obed. In Old Testament times the word spirit refers to God's power. As a king, the king of Judah, was returning victorious from his engagement with Zerah, the Ethiopian (14:9-15), Azariah went out to meet him. Instead of greeting him with words of congratulation and praise, he solemnly warned him that he must remain loyal to God. "Hear ye me, Asa," he said, "and all Judah and Benjamin [the tribes over which Asa was king]: Jehovah is with you, while ye are with him; and if we seek him he will be found of you; but if ye forsake him, he will forsake you." "He told them plainly upon what terms they stood with God. Let them not think that, having obtained the victory, all was their own forever; no, he must let them know they were upon their good behavior. Let them do well, and it will be well with them, otherwise not." (Matthew Henry). Compare David's counsel to Solomon, 1 Ch. 28:9.

Asa's Reforms, 15:8. Encouraged by Azariah's words (probably the words (Azariah the son of Obed) dropped out of the text in copying, or Obed is a mistake for Azariah), Asa put away the abominations, destroyed the idols, and did away with the degrading heathen rites, out of all the land of Judah and Benjamin and out of the cities which is father Azariah had taken (2 Ch. 15:10).

Asa's Reforms, 15:8. Encouraged by Azariah's words (probably the words (Azariah the son of Obed) dropped out of the text in copying, or Obed is a mistake for Azariah), Asa put away the abominations, destroyed the idols, and did away with the degrading heathen rites, out of all the land of Judah and Benjamin and out of the cities which is father Azariah had taken (2 Ch. 15:10).

Asa's Reforms, 15:8. ## Personal and Local

Herman McLeod, of Merced, is the guest of his parents, Mr. and Mrs. A. McLeod, this week.

Rev. R. C. and Mrs. Taylor and family left on Monday for two months holidays in Vancouver.

Mr. and Mrs. Donaldson of Lethbridge are visiting at the home of Mr. and Mrs. A. Dewar.

Mrs. John Anderson spent the holiday with her daughter at Michiel.

Correction: In a headline last week it was stated the schools would re-open on Aug. 29; it should have been Mon., Aug. 27.

Miss Kathleen Gray, formerly of Saskatoon, has taken the place of Miss Mary Haman as waitress in the Grand Union hotel.

Miss B. L. Dunlop and Miss H. Dunlop, the latter of Calgary, left on Saturday for a motor trip to the coast, where they are spending the mid-summer holidays. They went via Waterton Park and Cardston through Montana and proceeding westward will spend their vacation at Victoria, B. C.

R. W. William Albert, of Calgary, who is a keen advocate of Social Credit for Alberta, will address a public meeting at Pincher Creek on July 19. He was unable to accept an invitation from Coleman, owing to being booked up, but in a letter stated he would be pleased to see as many from Coleman as possible. The committee of the Men's Brotherhood are arranging transportation for those who have not cars, and application should be made to Mr. Snowden.

Every morning for the past week many pairs of eyes have looked at the "8-day clock" in Chahley's jewelry store win low, running in connection with the Bulova watch competition for high school students. It has now run five days over the expected time that it would stop, and if it doesn't soon stop the suspense will increase among those whose names are entered in the competition. It brings to mind the query: If a clock will go for eight days without winding, how many days will it go with winding?

Bert Stephenson had a remarkable escape from serious injury working for Coleman Light and Water Co., he was at the top of a 30 foot pole, with spurs on his boot and one of the spurs was embedded in a knot in the pole. On releasing one foot from the pole, the knot gave way under his weight. Fortunately he had one arm around the pole, which saved him from falling, but at that he came down at sufficiently rapid rate to lacerate his arm and bruise his leg, making him temporarily lame.

### Patriotic Day Service at St. Paul's

The Patriotic Day service held in the United church on Sunday, July 1st, was largely attended by Girl Guides, Boy Scouts, Sunday school classes and adults.

The service was, for the greater part, conducted by members of the classes. As well as observing the 67th birthday of Canada, its purpose was also to commemorate the 400th anniversary of Cartier's discovery of our present Dominion.

Lorraine Rippon played the organ. Prayers were repeated by Margaret McColloch and Betty Beveridge. Short addresses were given by Joan Flynn, Frankie Sharp and Harold Dewar; several patriotic poems were recited by Oliver Brown, Francis Short, Gwen Dunlop and Mary Snyder.

Gwen Dunlop was presented with a bible by Mr. Holmes through the kindness of A. Cameron.

The service concluded with a short address by Mr. Taylor in which the minister stressed the importance of Canada's boys and girls of today being trained to develop the Canada of tomorrow.

### Coal Creek Defeats Coleman

Coleman suffered their first away defeat of the season when they travelled to Coal Creek on Sunday and suffered a 3-0 set back.

Edwards missed a set up for Coleman in the first couple of minutes when he lobbed a ball over an open net from only a few feet out. Coal Creek were playing the better football and Smith scored for Coal Creek when his shot rebounded off a player into the net.

The second half was only under way four minutes when Atkinson headed in a beauty the result of a corner kick. Eight minutes later Simpson tried his luck with a first timer to chalk up number three. This finished the scoring for the rest of the game, final result being Coal Creek 3 Coleman 0.

Coal Creek: Sopko, T. Ferguson, McNay, Pirie, J. Milburn, R. Ferguson, H. Milburn, Simpson, Atkinson, Chester.

Coleman: Ford, Griffiths, Burrell, W. Anderson, J. Anderson, J. Fraser, Moore, W. Fraser, Edwards, Jack Anderson, Brown.

### Big Sendoff For Italian Hall

So many attended the opening dance of the remodelled Italian hall on Monday evening that many had to be turned away. The hall was packed, stairways were thronged and others stood around outside listening to the music. Flowers to decorate the hall were sent by Mrs. Wiley and Mrs. Beveridge, which were appreciated by the ladies of the Italian Society. As one of the members expressed it—"We surely appreciated the hand which Coleman gave us as a send-off."

### School Musical Festivals

School musical and dramatic festivals, practically unknown a few years ago, have grown tremendously in the past few years in Alberta and have become an important influence on rural and city school life. This year more than 11,000 school pupils over the province participated in these festivals compared with about 8,400 last year. This year something like 1,100 prizes were awarded compared with 680 last year, and 571 classes were competed in against 453 last year.

### Here and There

S. S. Empress of Japan arrived at Victoria recently with one of the largest passenger lists in the past three years. There was a total of 577 from the Orient and Honolulu. The liner was also heavily booked for the westbound trip from Vancouver and Victoria.

Speaking at Toronto recently before members of the International Building Owners and Managers Association, E. W. Beatty, K.C., chairman and president of the Canadian Pacific Railway, doubted the wisdom of "too elaborate planning" in national economies. Mr. Beatty did not think the present system of society was wrong except in the "way in which it is applied."

The Canadian Pacific Railway will celebrate the fiftieth anniversary of the completion of its transcontinental line next year. It was November 7, 1885 that Donald A. Smith, later Lord Strathcona, drove the last spike at Craigellachie joining east to west and Atlantic to Pacific.

Hon. Charles A. Dunning, vice-president and general manager of the Seignior Club, Montebello, Quebec, has been elected a director of Barclays Bank, Canada. The former Federal Minister of Finance is also president of the Ontario Equitable Life Insurance Company.

After one of the most remarkable and successful meetings ever held by a religious body, the Oxford Group left the Banff Springs Hotel for the Easter holidays. They sailed from Quebec by S.S. Empress of Australia for England. The next home party will be held at Oxford July 1-14.

Speaking at the Admiral Beatty Hotel, Saint John, Sir William Clark, British High Commissioner to Canada, claimed that the real source of Canada's troubles in connection with marketing agricultural produce lay in the un-economic expansion of agricultural production by industrial countries, especially some of the larger European countries which are normally importers.

Muske, moonlight, glorious lake breezes with 600 miles of sailing on the Canadian Pacific's Great Lakes ships. Assiniboia, Regina, and Manitoba are at the disposal of passengers on the company's lines this summer low cost. The offer promises to be very alluring to Canadians and visitors to the Dominion as well.

Quebec Province is alive with fete, celebrations and gala events this year marking the anniversaries of some of the most memorable events in its history. Among them and the most important is the 400th anniversary of the discovery of Canada by Jacques Cartier in July 1534.

A Mediterranean-Africa-South America cruise in the 22,000-ton liner Empress of Australia, visiting 24 ports in the Mediterranean, Palestine, Egypt, East and South Africa, South America and the West Indies will be operated next winter. It is announced by the Canadian Pacific. The cruise will take 96 days, leaving New York January 18, 1935 and returning there April 24.
